MOOG® Super Strength® U-Joints

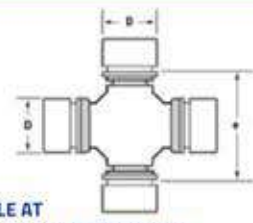

For high torque and horsepower applications

MOOG® Super Strength® u-joints are specifically designed for high torque applications. They feature an alloy steel cross and abrasion-resistant nitrile seals for ideal grease retention.

These rugged u-joints are available in greaseable and non-greaseable versions.

MOOG® Universal Joint Specifications

Upper Cylinder Lubricant With Injector Cleaners & Fuel Conditioners

The Complete Fuel Treatment!

KEY BENEFITS

- Cleans & lubricates the entire fuel system
- Increases the life of pumps, valves, rings, & injectors
- Solves low sulphur diesel fuel problems
- Fuel burns more efficiently - greater MPGs & fewer emissions
- Use at every fill-up to maintain peak engine performance

Increases Fuel Mileage & Performance!

DRIVEN BY POSSIBILITY™

AUTOMOTIVE TOOLS AND ACCESSORIES:

STRETCH FIT TOOL

FOR SAFE AND ACCURATE INSTALLATION OF
STRETCH FIT BELTS

Some engines have special accessory belt drive systems that are not equipped with a tensioning device. These engines use stretch fit belts in their drive systems which have self-tensioning technology eliminating the need of a tensioner and reducing weight in the engine. It is important to use the right tool when installing a stretch fit belt for a safe, easy and accurate installation process that ensures the belt will not be damaged when mounted.

STRETCH FIT TOOL KIT

Contains 6 Sets Of Installation Tools

- Tools are designed to assist in the installation of Stretch Fit belts on certain applications
- Each tool is optimized for proper installation to avoid damaging the belt
- All tools are reusable, eliminating the need to buy a tool every time a belt is installed
- Installation instructions available [online](https://www.gates.com) at Gates.com
- Portable carrying case organizes and protects tools from damage for repeated use
- Tools cover approximately 90% of Stretch Fit applications on the market

91091

RAPTOR Tintable Truck Bed Liner Kit

4 Liter Tintable 2.6 VOC Compliant Kit; RAPTOR Tough Protective Coating is a durable urethane coating that provides surfaces with a protective barrier that can withstand the toughest situations. Use for automotive, construction, marine, and commercial applications. Each kit contains four 750ml bottles of RAPTOR and one 1L tin of hardener. Each kit covers approximately 125 square feet, enough to do a full size pick-up truck bed.

#RAPTORIZE YOUR RIDE IN COLOR!

RAPTOR Color is a concentrated tint for use with RAPTOR Tintable Protective Coating. Mix RAPTOR Color with RAPTOR Tintable Base to give a rich, UV resistant color that won't fade even after years in the sun. Available in a wide range of colors, choose either a single color or use different colors to create your own multi-colored, custom look.

THREE SIGNS OF FUEL PUMP FAILURE

Proactively prevent issues by understanding these three main signs of fuel pump failures

A failing fuel pump delivers far less fuel to the engine, and while this is a significant vehicle setback there are ways to anticipate this problem.

THE THREE MAJOR SIGNS OF FUEL PUMP FAILURE INCLUDES:

1. Hesitation during acceleration: The vehicle's acceleration is slower than normal or the engine shuts down completely during acceleration. This could mean the fuel pump is struggling to keep up with the increased need for gasoline.

2. Rough idle: A clogged fuel pump prevents the proper amount of gasoline from getting to the engine, which ultimately affects the idle speed.

3. The vehicle isn't starting: This is cut and dry, but if the vehicle fails to start the fuel pump may be to blame.

If any of these are detected, it's recommended to inspect the fuel pump to check the status of your vehicle and proactively prevent further issues.

VALVOLINE MAXLIFE MULTI-VEHICLE ATF (FULL SYNTHETIC)

MaxLife Multi-Vehicle ATF is formulated to help extend transmission life.

- **Full synthetic base oils and long-life friction modifiers help improve smooth shifting, eliminate slippage and shudder, prevent clutch wear and improve driveability longer than conventional fluids**
- **High-performance seal conditions maintain and preserve the elasticity of seals to help prevent leaks**
- **Engineered with a unique blend of viscosity modifiers and base oils to provide better oil flow at low temperatures and greater film protection at higher temperatures**
- **Suitable for use in a broad range of ATF Applications including most Ford, GM, Toyota & Honda models as well as Dex/Merc, Dexron VI, Mercon LV and many more applications**

Complete Wheel Hub Assemblies

WE BRING IT ALL TOGETHER

With industry leading application coverage and engineered product enhancements, MacPherson Hub assemblies meet the demands of professional installers.

BETTER VALUE:

MacPherson Hub Assemblies are designed and manufactured to maximize durability, reduce noise and extend service life.

LESS LABOR:

Installation-ready hub assemblies include everything in the box to get the job done.

BETTER RIDE:

Premium materials and manufacturing processes eliminate noise associated with bearing vibration providing a smooth quiet ride.

Chassis Parts

EXCLUSIVE!

Popular truck and passenger vehicles feature distinctive and premium application-specific upgrades – only found on Macpherson Ride Chassis parts.

- Ultra-Guard™ corrosion coating prevents build up of harmful contaminants
- Pre-loaded with high-quality lubricating grease
- Improved boot design and material with all-season

A premium chassis alternative featuring:

- **Comprehensive** steering, suspension and wide control arm assembly coverage for all popular makes and models
- **Exclusive** MacPherson Ride Chassis parts with upgraded designs
- **Exceptional** value and easier installation which delivers reliable performance!

Philips UltinonSport LED

The perfect upgrade from halogen to LED

Philips UltinonSport LEDs are direct replacements for conventional halogen fog and off-road headlight applications. With 6000 K brilliant white light, they're the perfect upgrade from halogen to LED technology.

Engineered to deliver durable, long-lasting performance, UltinonSport LEDs have active cooling and a one-piece design, with electronics integrated into the bulb base, for quick and easy installation.

Available: 9003, 9005/9006, 9007, 9008, 9145, H1, H3, H7, H8/H16, H9, H11, and PS24W

OE FIX PARTS ARE ENGINEERED TO RESOLVE KNOWN FLAWS, REDUCE INSTALLATION TIME, AND ALLOW MORE PRECISE REPAIRS.

ELIMINATE FAILURE-PRONE FACTORY DESIGN

4WD PARTS THAT ARE ENGINEERED TO ENDURE

Most 4WD components inevitably suffer serious wear and tear over the years, whether it's because of the stress the driveline goes through or the slippery stuff that comes along for the ride, like mud, sand, snow, and salt. These parts fail not only because they have to meet tough challenges, but because they have to do so over and over again.

From actuators to transfer case switches, our wide range of quality repair parts is extensively engineered to ensure durability and resolve known OE flaws. And because every part comes complete with a limited lifetime warranty, you can be confident your repair will stand the test of time—from smooth suburban roads to the most unforgiving terrain.

QUALITY PARTS FROM THE AFTERMARKET'S MOST TRUSTED NAME

- **Choose #1** – With hundreds of solutions, Dorman is the leader in direct replacements
- **Superior engineering** – Discover reliable, upgraded replacements for all your 4WD repairs
- **Better than OE** – Our OE FIX parts restore 4WD function and provide increased durability
- **Lifetime warranty** – Our 4WD components stand the test of time

Deep Creep

We dare you to try Deep Creep's quick-acting, petroleum-based formula against any penetrating oil and/or spray you've ever used. Deep Creep breaks surface tension and cuts through corrosion and deposits of all kinds to loosen, lubricate, clean and protect parts and mechanisms.

WHAT'S IN YOUR BOX?

StandardWhatsInYourBox.com

The Factory-Assembled, Drop-In Replacement

Standard® Oil Filter Housing Kits include the vehicle-specific Filter, Cap, Bypass Valve, Heat Exchanger (Cooler), Gaskets, Hardware, and both the Oil Temperature and Oil Pressure Sensors. Competitor units don't include all of the necessary components.

**What's inside the Standard® box...
a factory-assembled drop-in unit
with sensors and OE-matching filter.
What's in your box?**

Vehicle manufacturers have designed these housings to meet the cooling requirements of today's engines. Standard's Oil Filter Housings are made from a high-strength, high-temp synthetic material to match the heat-dissipating characteristics of the OE design and keep the oil cool.

Factory-assembled,
drop-in replacement

Designed with a high-strength, high-temp
synthetic housing to maintain OE-matching
heat-dissipating characteristics

ABS SENSORS

- Perfect Stop ABS Sensors offer superior coverage for Domestic as well as Asian and European Import Vehicle Applications
- Over 2,300 SKUs covering 98% of the North American market
- All Sensors are manufactured to meet or exceed the OE part for Quality and Fitment
- 3 Year / 36,000 Mile Warranty

BRAKE WEAR SENSORS

- Manufactured utilizing the highest-quality reinforced plastics withstanding temps up to 400°C
- 3 Year / 36,000 Mile Warranty
- With more than 300 part numbers covering over 99% of applications throughout North America, Perfect Stop is sure to have the sensor you need when you need it.

VEHICLE SPEED SENSORS

- Over 200 SKUs covering 90% of the North American Market as well as Asian and European Import Vehicle Applications
- High-quality reinforced plastic housing (superior weather resistance)
- All Sensors are manufactured to meet or exceed the OE part for Quality and Fitment
- 3 Year / 36,000 Mile Warranty
